Using the NeroBot commands, you'll be able to increase your chances of hatching a Dragon of your desired element (**fire, ice, wind, water, earth, and lightning**).

→ **Higher chance of a CHARGED Dragon**

Using the NeroBot commands, you'll be able to increase your chances of hatching a CHARGED Dragon (more details on CHARGED Dragons soon).

Burning Event

There will only ever be a maximum of 1000 Dragon eggs in the world. However to cull the population, a legendary burning event will occur.

The burning event will allow egg holders to take 3 eggs and burn them to create a single legendary egg.

This legendary egg will allow the holder all the benefits of a normal egg, however during hatching event, the Dragon that emerges will be a legendary Dragon!

The NeroVerse Market will allow egg holders to buy and sell their eggs, so if you are hunting for that 3rd egg, keep checking the NeroVerse Market!
